1982/83 SEED EXPORTS A RECORD \$305 MILLION

SUMMARY

Exports of seeds for planting totaled a record \$304.6 million in 1982/83, 5 percent above the previous July-June marketing year. Exports of all types of seeds, except grain sorghum and soybean seeds, increased over last year. The total quantity of exports of U.S. seeds increased 7 percent to 243,404 metric tons for the 12-month period. The strength of the U.S. dollar combined with economic and/or political problems prevented higher sales in many markets.

Forage seed exports of \$67.4 million were 7 percent above the year earlier. Shipments to Canada and Japan, the largest markets for U.S. forage seeds, totaled \$13.0 million and \$9.7 million, respectively, up 18 percent and 8 percent. The European Community (EC) market showed a sharp improvement, with shipments there up 25 percent to \$18.2 million. While shipments to Saudi Arabia and the Republic of Korea also increased, those to the Republic of South Africa remained stable, but those to Mexico and Australia declined.

Alfalfa seed exports continued to decline, falling to \$14.6 million, 24 percent below the year earlier. Bentgrass seed shipments were also slow, totaling 2,373 tons valued at \$3.1 million, down 5 percent in volume and 22 percent in value below last year's exports. Kentucky bluegrass shipments were active during the past year, reaching 7,304 tons worth \$7.5 million, up 36 percent and 20 percent, respectively, over a year earlier. Canada and the EC were large markets for U.S. bluegrass seed with exports totaling \$2.6 million and \$3.0 million, respectively. Clover seed exports rose 40 percent, to \$8.3 million. Canada, Italy and Japan were all major markets. Fescue seed exports gained 9 percent to \$7.3 million and ryegrass seed exports increased 27 percent to \$9.6 million.

U.S. exports of vegetable seeds expanded 8 percent over the year earlier to \$106.1 million, accounting for 35 percent of the total value of U.S. exports of seeds for planting. Exports of vegetable seeds to the EC hit \$31.1 million, an increase of 19 percent over 1981/82. Japan was the largest individual country market for U.S. vegetables seeds with exports there valued at \$14.1 million, 22 percent over a year earlier. Shipments to the Netherlands increased 59 percent to \$105 million. Canada and Mexico remained important markets, although shipments fell 16 percent and 22 percent, respectively, to \$9.3 million and \$8.9 million. Largest U.S. export items in this category were bean (\$11.5 million), pea (\$11.3 million) and sweet corn seeds (\$11.0 million). Exports of cucumber, onion, radish and tomato seed rose substantially as shipments of carrot, sweet corn and watermelon seed declined from the year earlier.

Flower seed exports continued to do well during the past year, rising 9 percent to \$5.3 million. The principal market was the EC, with shipments there totaling \$3.1 million, 59 percent of all U.S. exports for this group.

Exports of corn seed reached 36,327 tons valued at \$62.9 million, gains of 13 percent and 17 percent, respectively, over a year earlier. Exports to the EC finished at 16,942 tons, an increase of 4 percent over the previous year. Mexico was the largest country market, with shipments totaling 10,880 tons, followed by Italy (10,277 tons) and Japan (2,717 metric tons).

Grain sorghum seed exports declined slightly the past year, totaling 36,326 tons valued at \$27.0 million. Mexico continued as the No. 1 sorghum seed market with shipments totaling \$14.7 million in value, 7 percent above a year ago. Mexico accounted for over half of all U.S. sorghum seed exports. Other major markets included Venezuela, the EC, Japan and Colombia.

Soybean seed exports dropped sharply in 1982/83 to 22,561 tons valued at \$11.7 million -- down 53 percent and 50 percent, respectively. Exports to Mexico, the largest market, declined 73 percent to 10,591 tons. Italy, the second leading market took 3,950 tons, up from only 234 tons a year earlier. Korea and Japan were also important markets, taking of 1,658 tons and 1,237 tons, respectively.

Exports of U.S. sugar beet seed doubled from the year earlier, reaching 1,919 tons valued at \$3.3 million. Sweden was the largest market, buying 1,239 tons and was followed by the EC with 582 tons.

Over half of U.S. seed exports (53 percent) on a value basis went to five markets -- Mexico, Japan, Italy, Canada and the Netherlands. Shipments to Mexico, the largest market, declined 24 percent to \$46.3 million, or 15 percent of total U.S. seed exports during the 1982-83 marketing year. These shipments included forage seeds, \$3.5 million; vegetable seeds, \$8.9 million; corn seed, \$13.1 million; grain sorghum seed, \$14.7 million; and soybean seed, \$4.3 million.

Exports to Japan, the No. 2 market, totaled \$34.4 million, a 16 percent increase over the year earlier. Vegetable seeds led exports to Japan, totaling \$14.1 million, up 22 percent above last year's. Shipments of forage and corn seed to Japan amounted to \$9.7 million and \$5.8 million, respectively—up 8 percent and 12 percent, respectively.

U.S. sales to the EC accounted for one out of three U.S. dollars in seed exports. These sales totaled \$99.3 million, a gain of 21 percent from 1981/82. Corn seed, valued at \$32.8 million, was the top item, followed by vegetable seeds (\$31.1 million) and foreage seeds (\$18.2 million). U.S. soybean seed exports to the Community jumped 142 percent to \$3.6 million, while grain sorghum seed exports fell 16 percent to \$2.0 million.

TRADE ALERT

With this issue the Foreign Agricultural Circular, FFVS -- which contains U.S. seed export data -- changes to a quarterly instead of monthly publication. The subscription rate is lowered to \$9.00 per year to cover the quarterly reports, published in November, February, May and August. Current subscriptions at the \$40 per year rate will be extended, based on the balance of individual subscription periods.

Changes in foreign seed import regulations and information of general interest to exporters will continue to be included in the quarterly issues. However, individual trade leads will no longer be included.

FOREIGN AGRICULTURE CIRCULARS

The Foreign Agricultural Service issues a number of Foreign Agriculture Circulars during the year on various commodities and export services for the food and agricultural trade, as well as specialized publications pertaining to individual commodities.

HOW TO ORDER: Check the title of each publication you wish to order. Remit a check for the total amount payable to the Foreign Agricultural Service. Only checks on U.S. banks, cashier's checks, or international money orders will be accepted in payment. NO REFUNDS CAN BE MADE. Mail this form to: Foreign Agricultural Service
